SUBJECT: Pre-Accession Drug and Alcohol Testing

The attached memorandum, dated May 11, 2000, establishes new timelines for retesting applicants initially testing positive for marijuana or alcohol. Due to the need for computer programming changes and extra laboratory equipment, this revised policy cannot be implemented at Military Entrance Processing Stations until May 22, 2000. Applicants testing positive on or after March 15, 2000, will be processed IAW the revised policy.

My point of contact for this issue is LTC Michael Ostroski, (703)695-5529, DSN 225-5529.

W. S. Sellman
